Boat people move to Minden

Pretty Picture

Sharon Barclay, of Carnarvon, shows off a beautifully hand painted card, one of seven designs that will be sold for the benefit of the Library museum project in Minden. The cards, hand designed by Louise Boddy, a Canadian Artist who spent many summers on Gull Lake, will be sold for \$3 a dozen to help the project.

Rockcliffe exempted from noise by-law for one month

The Rockcliffe Hotel, in Minden, has been exempted from part of the Anson, Hindon and Minden noise by-law for one month.

The request for the exemption came about after Rockcliffe owner, Dave Willis, was served with two summons charging the hotel with breaking the noise by-law.

The exemption to by-law

78-15 section 5 subsection 1 is in effect from June 30 to July 31 while sound engineers are to investigate the noise and is governed by five conditions. The requirements are 1) a weekly report on sound abatement is given to council by the owner or manager; 2) a final engineers' report on sound abatement to be received by council; 3) the management sees that steps

are taken to curb the noise during the exemption; 4) the amplification of music and patron noise is reduced; and 5) all exits are supervised and kept closed as much as possible.

Mr. Willis had lawyer Ted Gardener request the exemption at the regular council meeting last Wednesday night. Mr. Gardner's request was an exemption from that date until Labor Day Weekend (September 3) during which time professional sound engineers would be hired, at the hotel's expense to find if it is possible to cut down the "so-called noise problem in this town", he said.

"We're not for one minute admitting that there is a noise problem, in fact we're more than prepared to abide by the by-law," the lawyer told council.

Apparently, according to Mr. Gardner, sound absorbing tiles were taken out of the ceiling because the fire marshall's office and the Liquor Licensing Board of Ontario (LLBO) said they were hazardous. These tiles were then replaced with hard-core fire resistant tiles.

"The sound bounces off the

ceiling and out of the building now," pointed out Mr. Gardner.

"On one hand we have the fire marshall's office and the LLBO and on the other hand we have council...my client is being painted right into a corner," he explained.

Also, Mr. Gardner said the Rockcliffe had adopted a "closed-door policy."

"A 'closed-door policy' means no one can enter the Rockcliffe without supervision and without producing an I.D. (identification) card," the lawyer explained.

"The doors can't be closed because there's always people going in and out," said reeve Sinc Nesbitt.

"We're willing to protect any business...the thing is the noise has to be controlled," added the reeve.

The charges against the hotel have been laid between 12 and 1 a.m., according to Mr. Gardner.

He said that if the charges come day after day, "they're going to kill us". He pointed out that the fine if convicted for the offense ranges from \$100 to \$1,000.

"We're just trying to stop a barracade of charges," said Mr. Gardner.

A family of boat people fleeing from the Hanoi Regime in Vietnam will be immigrating into the town of Minden, in the near future.

After many hours of investigation and consultation the official board of the Minden and Carnarvon United Churches has decided to adopt the Vietnamese family.

Rev. Douglas Millar said on Monday that he was pleased with the overwhelming support given to the idea after it had been outlined to the congregation on Sunday. Over \$2,000 was pledged to help the family.

Approximately \$6,000 to \$8,000 will be needed to rent a house, and feed and clothe the family until they become adjusted, said the reverend.

Unfortunately, he felt that family would not be able to successfully immigrate into the county because of the lack of employment opportunities.

"They will live in Minden for a time to get to know us but the bread winner will probably have to go off to find the proper training and work elsewhere," explained the minister.

Millar said a pledge of support has also been received from Our Lady of Fatima Roman Catholic Church in the village that the congregation will work

alongside the United Church to help the family.

So far, the board has written a general letter to the immigration department outlining the project but everything is still in the development stages.

Also the town of Alliston has adopted a family and the procedures it went through are being followed by the United Church, said Rev. Millar.

Although the Canadian Council of Churches, including the United Church of Canada, are trying to focus on the crisis cases, no financial assistance will be sent for this project as it will be left in the hands of the local congregations.

In an effort to raise the money needed to look after the family the United Church has made 'units of help' that may be purchased for \$20 with that amount going to the aid of this homeless family.

"If each person of the congregation gave, we would have enough money for the family," Rev. Millar said hopefully.

If interested in helping this needy family contact your own church or contact Lorne Cobourn, in Minden, Norm Wallace in Carnarvon, or Mrs. Carl Barry in West Guilford.

Former County man killed in tragic accident

A former Haliburton County resident was killed in a car accident Sunday evening.

Dead is Timothy Terrance Toye, 24 of Orono.

Details of the accident are not clarified as yet because his three companions are remaining in Lindsay hospital in serious condition, according to Corporal Peter Alexander of the Minden detachment.

The men being treated in the hospital are Raymond Johnston, Oshawa, Nelson Johnston, of Toronto, and Jonathan Freeman, of Mississauga.

Apparently all the occupants were thrown from the car when it failed to negotiate a curve on Highway 35 just north of the Twelve Mile Lake Bridge.

While the car is registered in Freeman's name, police are not sure who was driving when the accident happened.

After rolling several times in the east ditch, the 1979 car

was estimated with \$7,000 damage.

Coroner H.E. Good, of Haliburton, attended the scene.

Provincial Constable Bob Wood and Corporal Alexander are continuing the investigation.

Booth appointed deputy fire chief

Don Booth has been appointed as Anson, Hindon and Minden deputy fire chief.

Mr. Booth, who has 15 years experience with the fire department, is moving up from the position of captain.

He will be replacing former deputy fire chief Ron Arbuthnot.

Canoe accident takes man's life

A West Hill man drowned when his canoe overturned in Long Lake last Tuesday, June 26, at noon.

Dead is Douglas Wallace Hebert, 26.

Hebert was in the canoe with two friends and when the boat was about 50 feet from shore, it overturned. The two friends made it to shore but Hebert did not.

Hebert had been camping in the area with three friends at the time.

According to police when the accident occurred the survivors went to Rainbow Cottages and asked them to

call the police.

When the police arrived a couple of questions were directed towards the men but then they left the area without identifying themselves.

The Minden OPP skiff was unable to find the body on Tuesday but divers from Barrie, Huntsville and Lindsay were successful on Wednesday.

Coroner H. E. Good, of Haliburton, attended the scene. No post mortem or inquest has been ordered.

Investigation by Provincial Constable Mike Maher and Corporal Ron Foran.

Over \$14,000 damage in holiday weekend accidents

Over \$14,000 damage was sustained in five single car accidents over the holiday weekend.

On Friday, a Brantford man was driving north when he lost control of his vehicle and it veered into the west ditch, along county road 11 in Stanhope Township, smashing into a rock face.

Leslie Snyder, 34, was driving a 1979 jeep which sustained \$2,000 in the accident.

Investigation by Provincial

Constable Jim Solway.

Early Friday morning a Wilberforce man rolled his 1977 pick up while driving on highway 121 in Monmouth Township.

Michael Croft, 22, was uninjured although the truck sustained \$2,000 damage.

Investigation by Provincial Constable Brian Dunham.

A 1977 pick up was damaged to the amount of \$1,000 on Saturday when it drove into the north ditch along Highway 503 near Furnace Falls.

Frank Bricker, 60 of

Brantford, was unharmed in the accident.

Investigation by Provincial Constable Boyd Jarvis.

A Gooderham man was rushed to Haliburton hospital with major injuries following an accident on Highway 507 near Gooderham, on Sunday.

Dennis Hunter, 30, was northbound when his car rolled over in the west ditch.

The 1979 vehicle was estimated with \$8,000 damage.

Investigation by Provincial Constable Reg Eveligh.

Also early Sunday morning

a Wilberforce man lost control of his vehicle and it veered into the north ditch along county road 4, in Monmouth Township.

Daniel Teather, 20, was driving a 1978 station wagon which suffered \$1,000 damage.

Investigation by Provincial Constable Reg Eveligh.

Buying museum still in the air

Anson, Hindon and Minden council has entered into an agreement with Roy Windover to purchase a house and three lots if it is feasible to renovate the building for a museum.

Council heard the agreement, presented by Fraser Bishop, at the regular council meeting last Wednesday.

The agreement is flexible according to Mr. Bishop, as it allows the council to back out if funding is not available and it also demands a date that a decision about the property must be made so a subdivision proposed by Mr. Windover will not be unduly held up.

If the purchase goes through the council will be buying three lots and the house for approximately \$30,000.

At the library museum meeting on Monday evening the group was undecided about the building until facts could be uncovered about Heritage Fund money to restore the building and the

feasibility of having a separate library and museum in contrast to the plans of the library/museum complex.

Trent Severn Waterway News

Historical report series well underway

During the Winter, the Trent-Severn Waterway interpretation program has been reprinting historical reports on the Waterway, and making them available to interested groups and libraries. This publication program, which has been underway for about a year, is now 80% completed.

The reports are reprints of interesting items from the historical files at the Waterway Office in Peterborough, some of which go back to the 1860's. They deal with early dam and lock construction, and with the general ups and downs of the long struggle to complete the Waterway over its century of construction.

Other reports have been

prepared by Parks Canada historians. These have been reprinted in an attractive, economical format, and have been distributed to all school and community libraries in the Waterway corridor.

We hope, in the near future, to introduce two new booklets. One will deal with the Hydraulic Lift Locks on the system, and the other will trace the development of the Severn River Section.

Water Control

On Monday, June 25th, the Haliburton Reservoir Lakes of the Trent-Severn Waterway held 95.2% of their normal maximum stored water. Withdrawals continued this week as last week, to replace evaporation along the canal route from Balsam Lake to Trenton.

School yards not being sprayed

The Haliburton County Anti-pollution Committee has been assured that herbicides are not being used on area school grounds. The committee president, Sonya Holliday-Rhodes had written to the director of education for the county, Doug Hodgson requesting details of any spraying programs undertaken by the board.

Hodgson responded that the board does not spray school yards with herbicides. He noted that four years ago a large swampy area adjacent to the high school in Haliburton had been treated to reduce the growth of underbrush. "That work was carried out by licenced individuals and with the permission of the health

unit," Hodgson commented. He said the spraying had been successful and has not been repeated.

He also said the school yard in Cardiff was sprayed a few years ago but that it was carried out during the summer holidays.

Hodgson commented that the board has received letters

from property owners near schools complaining of the dandelions in the school yard. He said the board attempts to keep the grass at all school yards trimmed.

The concern of the anti-pollution committee followed a number of reports from the Cobourg area that children had become ill after a school yard in which they were playing had been sprayed with a herbicide. A protest by parents to halt the spraying has so far been unsuccessful.

Biker with no helmet bounces off car

A motorcyclist without a helmet had lady luck on his side, when he hit one of two cars meeting on the crest of a hill, was thrown off his bike and bounced on the hood, roof and tail end of one of the cars, and only received minor injuries, last Tuesday.

The motorcyclist, James Jenkins, 18 of Willowdale, was following a car driven by Craig Tolhurst, 18 of

Willowdale.

When the Tolhurst car met a car driven by Jaunite Celestino, 24 of Toronto, the motorcycle hit one of the two cars. Police have yet to determine which car was struck.

Jenkins was thrown from the bike, bouncing on top of the Celestino vehicle. The 1979 motorcycle sustained \$300 damage.

Then in confusing sequence

of events the Celestino car collided with the Tolhurst car ripping the entire back axle out of the vehicle causing \$6,000 damage.

Police report the motorcycle was uninsured and did not have licence plates.

Investigation by Provincial Constable Bill Clendenning.

On Saturday an accident took on an interesting twist as two cars collided on Clear Lake road with both drivers having the same last name and age although they were no relation.

Lawrence Hirstwood, 23 of Mississauga, received minor injuries while Douglas Hirstwood, 23 of Norland, was uninjured.

The Mississauga man was northbound when his car collided with the Norland car near the crest of a hill.

The Mississauga car received a damage estimate of \$700 while the 1979 Norland Pickup was damaged to the tune of \$1,000.

Investigation by Provincial Constable Jim Solway.

Trent Severn Waterway News

continued from page 2

Rain on Friday, June 22nd, helped considerably in the Kawartha Lakes and on Lake Simcoe-Couchiching, but drier weather resulted in a net loss by Monday.

Some flow delays between upstream lakes and those lower down in the Gull system have temporarily caused lakes such as Twelve Mile - Boshkung and Maple to go lower than the percentage level of the others. This often happens at the beginning of drawing reservoir water

because of problems setting the proper flow and time required. Water may be easily taken from one lake which is to be partly replaced from upstream. The upstream channel, however, may be long and swampy requiring the passage of several days before the water gets through to the lower lake. These discrepancies in levels should disappear through the next week as the percentages become equalized again.

Reaching out

When tragedy strikes in some other part of the world, individual Canadians often find it difficult to express their concern. An earthquake in Guatemala, famine in the Sahel, typhoons in India, there seems to be little way we can reach out directly to help those people in need.

There are of course international organizations through which our overseas assistance can be channeled. And the help they offer, in most cases goes a long way to ease the suffering. But, the personal feeling of giving and sharing is often lost in the transfer of funds through an intermediary.

That is one reason we are pleased to note the actions of the members of the Minden United Church and Our Lady of Fatima Roman Catholic Church congregations in agreeing to sponsor a family from the many refugees who have fled from Vietnam. Here for once, is an opportunity for each of us with concern for his fellow man, to reach out and help someone in a desperate situation.

The boat people, as the refugees are known, are caught between the repressive policies of their own government and the mercy of the rest of the world. Other nations in Southeast Asia have tried to help but obviously their resources are strained and they have now adopted policies that excludes these desperate people from their shores.

Our land is rich. We do not have to endure oppression by our government. We are indeed fortunate.

The two congregations have given us an opportunity to share our good fortune. Now is the time to respond.

Care still needed

Forest fires are not a major threat in the Highlands, but that is no reason why residents and visitors alike should ignore common sense practises when in the bush.

According to area fire control supervisor Bob Musclow of the Ministry of Natural Resources, the fire crews respond to an average of 50 outbreaks each season in Haliburton. Most of these blazes are promptly reported and they are contained within quick order.

A number of factors reduce the danger of forest fires in the region including the type of forest cover, the easy access to most parts of the area, the large number of natural fire breaks including roads, lakes and rivers and the rapid reporting of any fires by the public. A contingent of 95 fire wardens throughout the Highlands and the co-operation of the municipal fire brigades are two other important factors.

But, while residents of Haliburton may never have to face the fury of a raging forest fire, we are in no way absolved of our duty to protect the forest around us. The Ministry of Natural Resources statistics show that the cause of nearly 70 percent of all blazes in 1978 can be traced back to man-made source. Most of that number are a result of carelessness or human error.

Care and attention to the common sense safety rules of the forest will ensure that the threat of serious forest fires here will remain low and decrease in the future.

REPORT FROM QUEEN'S PARK

By John Eakins, M.P.P.

The majority of the 63 institutions which give care and shelter to more than 1,100 children and young people in Ontario are experiencing serious problems due to shortage of money. A report released by the Ministry of Community and Social Services says that the present financing arrangement is "inadequate, outdated and not geared to meet the individual needs of each home." Also, inspections of these institutions by ministry officials are "infrequent" and "lack rigor"; staffing in half the homes is inadequate and wages are extremely low. One

institution hasn't been visited by a supervisor since the present director started work about two and a half years ago. The ministry review states that two-thirds of the institutions had direct operating losses in 1978 for a total deficit of more than \$600,000. These homes provide a wide variety of services for children with social and personal problems: children who are having difficulties at home, unwed teenage mothers and those in trouble with the law. The ministry is offering each institution the option of remaining under the existing

funding arrangements or changing to an alternative arrangement based upon an individual agreement with each home. Under legislative regulations, Ontario pays 80 per cent of their revenue from non-government sources. The ministry will meet with officials of the homes to discuss in detail recommendations of the report, which include some program changes, bed closings and reallocation of some resources.

Ontario's new rent review and landlord and tenant legislation passed third and final reading by a vote of 63 to

28. The NDP voted against the 141 section bill, which combines rent review with a rewritten landlord and tenant act and creates a Residential Tenancies Commission. This Commission will determine rent increases and other landlord-tenant matters previously handled by the courts.

The government has removed the built-in December 31st, 1980 expiry date for rent controls and, when the section dealing with rent increases takes effect, it will limit them to 6% a year. If a landlord wants more, he'll have to make his case before the Tenancies Commission.

Haliburton daisies.

Coming Up

This calendar of events will be available for local organizations to display a small description of their coming event. To get your community event in the news, call 286-1288.

July 7: Beef barbeque at the Minden Arena sponsored by the Haliburton County Agricultural fair.

July 11: Bazaar & Bake Sale at Club 35, Hall's Lake, 1 p.m.

July 13, 14: Haliburton fiddle & step dancing championships

July 14: Opening of Haliburton Highlands Guild of Fine Arts' Rail's End Gallery.

Mainstream Canada

Promoting the Games

By W. Roger Worth

Canada recorded its first known lottery-related fatality recently when 32-year-old Newfoundlander Gerald Roberts, an alcoholic, died after apparently consuming too much booze.

Roberts, who left a wife and three boys, became a millionaire little more than a year ago when his numbers came up in the Loto Canada draw.

Roger Worth is Director, Public Affairs, Canadian Federation of Independent Business.

While Robert's sad demise is perhaps unimportant in the overall scheme of things, it raises questions about the methods Canada's bureaucrats turned hucksters are using to flog their lottery wares across the nation.

Here's Bonanza veteran Lorne Greene, for example, front and centre on the national television network, cajoling Canadians to buy the \$10 tickets that have created more millionaires than the Klondike Gold Rush.

The provinces and regions of the country, following Ottawa's lead, are spending millions of dollars on high-priced, high-powered advertising to

win business away from their federal counterparts.

The argument is not whether Canada should have lotteries, or who should control them. Lotteries and games of chance have become a way of life, particularly since Ottawa set up Loto Canada to help finance the debt left from Montreal's Olympic debacle.

In addition, the financial support for amateur sports and community projects provided by the proceeds of provincial and federal sweepstakes has been helpful.

Still, the system seems to have gone berserk. Advertising budgets for virtually all of the lotteries have rocketed as the market peaked.

Now, federal government promoters are attempting to squeeze the small businesses who made the schemes so successful. Supermarkets are allowed to sell Loto Canada tickets, pulling business away from the corner store.

The basic question, though, is why Canadians are besieged with material promoting the instant millionaire. In their claims, few of the advertisements mention the fact that only one buyer in every 625,000 (the best odds) is a winner.

Gerald Roberts was a winner. You can bet Loto Canada will not be using his name in upcoming promotions.

Firefighters see northern duty

Forest fires in the Haliburton area have not been a major problem this year, but that doesn't mean the fire control staff from the local office of the Ministry of Natural Resources haven't been busy. In addition to the training and equipment preparation which proceeds the start of the fire season, the men and the equipment of the Minden District have been called on to assist with fire suppression in northwestern Ontario.

Fire Control Supervisor for the district, Bob Musclow, was one of the 13 local MNR employees called on by the ministry to assist with fighting the large blazes which have ravaged northern Ontario. He returned just last Thursday to the more sedate and cooler surroundings of the Highlands. Other members of his staff, including a number of unit crews, were still in the north at the end of the week, but Bob expected them back shortly as fire fighters get the upper hand on the blazes.

"Fire fighting is a province-wide operation," Bob explained Thursday morning. "It is co-ordinated from the fire control centre in Sault Ste. Marie. From there supervisors will assess the need for support at any one fire, moving crews from one district to another and co-ordinating the back-up protection for those areas from which men are drafted." There are 21 fire fighting crews in a region of which Minden is one part. Fifteen

were sent to northwestern Ontario.

In addition to drawing manpower from throughout the province to fight a forest fire, the fire control centre can also call on equipment and supplies located at various bases in the province.

As the fire centre in the Sault starts drafting men to fill the front ranks of the fire fighting crews, a second group is drawn on as well for support service. Payroll clerks, secretaries, drivers and cooks among others must also be brought in to ensure that the needs of the men on the front lines are met. Again the co-ordinators reach out to district offices across the province to help fill the ranks. In many ways the operation is similar to the mobilization of a small army on a short term basis.

Local scene

When not on duty elsewhere in the province, Bob leads a team of fire control officers who keep the lid on any potential problems in this area.

He is in charge of a fire control area that stretches from near Dorset in the north to Bobcaygeon in the south. The area includes territory west to Muskoka and east to Bancroft. There are three unit crews located in the district, ready to respond to an alarm. A unit crew, which is made up of a leader and our men and the necessary equipment, is located in Minden, Haliburton and Gooderham.

In addition, Bob has the co-

operation of all municipalities within this district. A team of 95 fire wardens throughout the district assist in fire detection and suppression and the local fire brigades can be called on when needed. "We have received excellent co-operation from the municipalities," Bob stated. "Often we don't hear about a fire until it has been extinguished by one of the local brigades."

Most of the fires in the Haliburton area have been held to small blazes, according to Bob. "One of the main reasons for this," he

explains, "is the type of trees we have here. The deciduous forest burns at a much slower rate with the green of the leaves and undergrowth, retarding the progress of a fire." He pointed out that the evergreens, which predominate in northern Ontario, burn much faster, particularly when they are dry. The result is a rolling fire that, with a steady wind, can move at a surprising speed, engulfing thousands of acres in a day.

"The area also benefits because it is broken up," Bob continues. "Road and lakes act as natural fire breaks.

Access to the fire is usually faster because of the road network that exists here and so we can attack a fire before it becomes too large." The fact that, compared to the north, the area is more heavily populated and fires are reported quicker, gives the crews an important edge.

"We also have fewer lightning started fires, a common cause in northwestern Ontario," Bob points out.

Bob has been with the ministry 30 years, marking his anniversary this past May. Though not always involved in fire suppression, he did

spend a number of summers in a fire look-out tower and has been fire control supervisor in this district for the past six years.

The ministry has taken the romantic fire towers out of service and now relies on airplane and ground spotting to locate forest fires. In some areas of the province experiments are being carried out with lightning strike locators. The machines are designed to register the location of air to ground lightning strikes within a given time period and will give fire control officers an indication of where to search for potential fires.

The area burned during the 1978 fire season in the Highlands area is indicative of the small scale of the problem when compared with other parts of Ontario. Just 47 acres went up in smoke last year. Major fires of over 25,000 acres often occur in the north.

"Last year we were able to attribute 58 percent of the fires to manmade causes related to recreation," Bob notes. "These would be fires started by hunters, fishermen, hikers, berry pickers and other people using the bush and not being careful with campfires or smoking materials."

"Residents were responsible for 19 percent of the forest fires," he points out. "Seventeen percent can be attributed to lightning, and three percent each to unknown and miscellaneous causes."

In an effort to protect the forests, the ministry requires that anyone planning on open burning, other than for cooking or heat, obtain a fire permit. The permits are required between April 1 and October 31.

"If the situation warrants it we can also restrict the issuance of the permits, or stop them altogether," Bob points out. In extreme situations, travel in the bush can be restricted.

It is a long way from the first of April to the end of October. While a great deal of the front line duty they encounter is in other parts of the province, Bob Musclow and the contingent of firefighters he supervises stand ready throughout the summer to reduce the damage caused by forest fires in the Highlands.

Many factors determine fire danger

Most residents have probably driven by the sign so often that when they glance at it, the message probably doesn't even register.

The fire danger warning indicators, one is located at the Minden MNR office, a second at the Frost Resource Centre, give a good indication of the potential for wild fires, in the Haliburton area.

From "low" to "extreme", the signs rate in four gradients the situation in the bush. But what exactly goes into deciding where the needle should be placed on any one day?

The ministry staff take a number of factors into consideration, each have a bearing on the combustibility of the forests and when they are all added together they produce the rating indicated by the board. The following items are part of the total calculation:

- rainfall: Each day the amount of rainfall is measured with a record being kept of the number of rainless days.

- wind: Wind speed plays an important part in drying out the bush. The strength of the wind on a given day will also be a factor in the speed with which a fire will spread if one should start.

- humidity: The amount of moisture in the air will alter the rate of drying of combustible materials in the bush. Generally, the higher the humidity, the slower the

speed of the burn.

- fine fuel moisture code: This is a reading of the dryness of fine easily burned materials such as pine needles or dried leaves. It is usually in this material on the forest floor that a fire will start. These materials will dry out quickest after a rain.

- duff moisture code: Duff is a general term referring to combustible material from mineral soil up to the forest floor. Literally, it is the material you walk on in the forest.

- drought code: A measurement of the dryness of the soil and the water table. Rainfall would have the greatest effect on this code reading, but the rate of drying, vegetation cover and wind would also be important.

- lightning: The most common natural cause of forest fires, the chance or occurrence of lightning is included in the calculations.

- initial spread and build up: These are factors which deal with what would happen if a forest fire should start. While they represent after the fact indicies, they are important in determining the threat posed by fire.

From these factors, with a dash of common sense and knowledge of local conditions, the fire control staff at the ministry sets the fire danger rating on a day to day basis.

Bob Musclow checks the fire danger rating.

FROM THE CHAMBER

By Bob Stinson

Haliburton Forest's Boiler Room

Last week, while providing our new travel counselors with a tour of the area we dropped in for a look at the "Boiler Room" at the Base Camp of the Haliburton Wildlife. This magnificent Log Building was created by Gary Kenney and members of the Haliburton Guild of Log and Timber Joinery. The project initially was used as a demonstration site for Log Building instructions last summer.

The building can be rented from the Haliburton Wildlife for group outings and during the winter would provide very cozy facilities. It is named the "Boiler Room" since the huge boiler doors from the original mill have been incorporated into the Kitchen-Bar opening, and it is heated by a huge wood-stove that has been adapted for this purpose from its original boiler-room capacity.

The building is a splendid example of the talented craftsmen we have in our county, and a considerable asset to the Wildlife operation.

Hot tubs now locally available

Contractor Jim Johnston called to let us know that he has acquired the Haliburton dealership for Canadian Hot Tubs Inc. of Kitchener. This firm uses tubs made by the old Canadian Barrel and Stove Co. in Waterloo who have been plying their trade for 107 years. Jim is currently installing a demonstrator unit in his back deck and invites your inspection. The "Hot Tub Craze" that is currently taking over from saunas is well founded Jim says, and once you have tried a Hot Tub you will understand why.

New Owners

Fort Irwin at Haliburton Lake is currently enjoying a "rebirth" after a few years of some considerable difficulty. The latest arrivals on this bustling scene are Mr. and Mrs. Goulet who have purchased the Fort Irwin Grill. The Goulets recently moved to Haliburton from the North West Territories and have chosen our area to settle in after having travelled almost all over the world.

Later this summer the Haliburton Guild of Fine Arts will be featuring an incredible collection of Eskimo Art at the Guild Station Gallery that will be loaned to them by Mr. Goulet.

On Oxtongue Lake, just east of Dwight, Gudy and Bob Maske are busy building a fine reputation for hospitality at Lakewoods. Highway no. 60 recently opened a by-pass that carries the main traffic flow around their location, but the Maskes are confident that as the reputation for their fine home cooking (with a special German Flavour) spreads, the public will seek them out. They also have excellent accommodation available in clean modern cottages overlooking their spacious beach.

We heartily welcome these folks to our business community and hope that you will drop in and say hello, and tell them we sent you.

Dances for young adults

The South Algonquin Kinsmen Club have scheduled three big summer dances to be held at the Wilberforce arena

with quality, live entertainment. We were pleased to note that they have booked groups that have a wide range of appeal so that the adult (but young at heart) citizens can enjoy participating.

The first dance will be held this Saturday, July 7th and will feature the well known Irish group "Seamus and Jammer".

On August 4th "The Family Brown" will visit us from the Ottawa Valley. This excellent group brought the house down at the Ontario Chamber of Commerce Convention this spring and will thrill not only country music fans, but anyone who appreciates talent.

The final dance of the season will be held on August 25th and the popular English group known as "Rainbow" will entertain. All age groups will enjoy listening and dancing to these fine musicians.

The Kinsmen are to be congratulated for bringing these excellent entertainers to Haliburton Highlands and we urge you to support their initiative. Advance tickets can be purchased throughout the county, including the Chamber Office at \$8.00 each, and at the door at \$10.00 each. See you there!

91 honor students from HHSS

Ninety-one students graduated with honors from Haliburton Highlands Secondary School for the 1978-79 school year.

The honor students are:

Year 1: Terry Allore, Gregory Brown, Craig Bugden, Shelly Bull, Terry Crowe, Mary Anne Daigle,

Ann Everall, Gregg Feltham, Julie Heayn, Debbie Irvine, Christopher Lodenquai, Jacqueline Miller, Katherine Mosgrove, Michael Pearsell, Michael Pearson, Nancy Shipley, Bruce White, James Wooden, Deborah Woolley, Dawn Wright.

Year 2: Michael Anderson,

Bret Austen, Richard Choy, Douglas Cross, Catherine Darby, Lisa Dunham, Andrew Feltham, Edward Heard, Karen Hughey, Christine Kinsman, Stephanie Kuno, Philip Mackie, Ernie Mosgrove, Laurie Sawyer, Jane Taylor, Rodney Thurston, Randy Vanderstarren, Sharon Williams, Doris Wolm.

Year 3: Leslie Booth, Cheryl Bruce, Lorna Carnegie, Elizabeth Cooper, Luanne Cowan, Catherine Debes, Laurie Hartin, Michelle Horsley, Coralie Hummel, Heather Kennedy, Laura Manser, Linda Mitchell, Brenda Morrison, William Packard, Lorry Perry, Lee Potter, Laurie Roberts, Karen Snell,

Mitchell Stephen, Shelley Thomson, Miriam Vanderwal, Anne-Marie VanLieshout, Scott Welch, Michael Wright.

Year 4: Andrew Anderson, Jennifer Anderson, Barbara Barnhart, Michael Bolender, Deborah Bruce, Martha Carnochan, Judy Gostlin, Shelley Hicks, Kerry Hodgson, Michael Iles, Mary Lou Johnson, Jocelyn Kennedy, Paul Madden, Lorrie Mosgrove, Brenda Noble, Tammy Prentice, Edward Roberts, Linda Schepers, David Shapiera, Gregory Taylor, Heather Thompson, Robert Wallace.

Year 5: Stephen Bugden, Alan Cooper, Peter Heuss, Beverley Jones, Marina Pearsell, Paul White.

AROUND THE TOWN

By Jeanne Sears

How did you celebrate Canada weekend? We saw the "Gathering of the Clans" Saturday night and then Sunday evening the "Show from the Hill" (Ottawa) and this was great; especially as they presented citizenship certificates to 12 young people representing each of the provinces and the two territories and then to the Shreyer children and also to David Trumbull who is 112 the same age as Canada. The show concluded with fireworks, a great way to show our own Canadian talent for a change.

Congratulations to the newlyweds Mr. and Mrs. Ronald Earle (nee Heather Vaillencourt) who were married on Saturday.

All their friends send good

wishes to Joyce Austen, and Nelson and Raymond Johnston who are presently in Ross Memorial Hospital.

Josephine Beaucage of Toronto visited last week with Yvonne Beaucage and daughters.

Jeffrey and Eden Moore of Clementsport N.S. are holidaying with their grandparents, Irene and Bill Moore.

Sincere sympathy goes to the families and friends of the late Tim Toye and James Purnell (of Donald) whose funerals were since last week.

Mrs. Isabel Lockie of Newmarket is enjoying a visit with her daughter and family, the Gordon Monks.

There was a family gathering over the weekend when the Ron Cox family of Peterborough, the Goldie Henderson family of Roseneath, the Basil Cox family of Bancroft, the Allan Cox family of Peterborough and the Horseley family, the Ken Cox's and the Wayne Cox's of Minden all joining with their parents Mary and Lyman Cox, at a Pot Luck Buffet outside, at the latter's home on the occasion of their 44th Wedding Anniversary. The community send their good wishes to this happy couple.

Mr. and Mrs. Harry Hughes enjoyed a 3-week motor holiday to B.C. and visited most of his family and also his father Frank Hughes

Haliburton meets defeat, first time this season

The Haliburton Ladies baseball team was finally defeated last Thursday in a 13-12 victory for Carnarvon. Carnarvon took the lead early in the game with Marg Darby pitching from the mound.

The two teams have been closely matched all season with Haliburton seemingly just one step ahead.

Nancy Maughan took the loss for Haliburton.

Minden was downed by West Guilford last week as the home team took a 11-7 win.

Nancy Brink was on the mound for West Guilford while Anne Hewson pitched for Minden.

The following night in Minden was a complete turn around as Minden easily swept to victory over West Guilford with a 18-9 score.

At the end of the fourth inning Minden was slightly

ahead as the score stood 7-6 but at the bottom of the sixth the team erupted with 11 runs.

Clutch hitters, Lyn Winans, Helen Burk and Patty Lou Vasey were in the top ranks.

Gail Teasdale had a good night at the plate for West Guilford.

Patty Lou Vasey took the win while Nancy Brink was the losing pitcher.

At the beginning of last week Haliburton beat Carnarvon with a 10-8 score. Nancy Maughan was the winning pitcher while the loss was taken by Belinda Brown.

Wilberforce came out the winner against Snowdon in two games last week. On Wednesday Snowdon

travelled to Wilberforce and although they were defeated 12-10, the women played their best game of the season.

Shelly Walsh, the winning pitcher, and Arlene Mathews helped at the plate for Wilberforce while Cathy Gartshore and Colleen Bacon hit home runs for Snowdon.

Audrey Vick was the losing pitcher.

On Thursday the two teams met again with Wilberforce getting the better of Snowdon for a 37-22 win.

It was a close game until the sixth inning when Wilberforce came up with 13 runs. Judy Faul was the winning pitcher while Audrey Vick took the loss.

Ron Robinson Sr. now level one coach

Ron Robinson Sr., of Minden, has completed the level one technical course allowing him to coach five-pin bowlers for the Colt 45 Open and the Colt 45 Classic.

Mr. Robinson along with Shirley and Ross Wilson, of Fenelon Falls, is now qualified as a level one amateur sport coach.

This course, which was made available by the Ministry of Culture and Recreation, allows the

graduate to coach any amateur sport or any chosen sport in bowling.

The three coaches will be holding coaching clinics for bowlers and non-bowlers this summer.

The clinics will be free to anyone interested in improving skills or learning the sport of five-pin bowling. Advertisements will be made in advance as to the time and place of registration.

3 aces on local course

This past week has been an exceptional one for golfers at the Beaverbrook course in Minden. During that time three holes-in-one were scored on the course.

The first came June 25 when Dean Hewitt of Minden scored an ace on the number eight hole. It is an 180 yard par three hole. His hole-in-one was witnessed by Shaine McKelvey.

The second ace also came on number eight. Warren Workman of Calgary zeroed in on the pin with seven iron shot off the tee. Mr. and Mrs. George Workman witnessed the event, June 28.

Dan Hutton of Oshawa scored his hole-in-one July 2 on the 230 yard par 3 number six hole at Beaverbrook. He used a three wood to sink the shot. Witnesses were Ted Hutton and George Moore.

Course manager Dave Stevens said it was not uncommon for the course to register three holes-in-one, but to have them fall within a week's time was unusual.

"Some years we have none, other times there will be four or more in a season. It is one of those things," Dave commented.

Merchants win squeaker

Softball fans were treated to an exciting evening of baseball Wednesday evening, (June 27) as the Minden Merchants downed Fenelon Falls 1-0. The only run of the game came in the final inning as both teams battled back and forth for the lead.

Rick Lamb led things off for the Merchants in the bottom of the seventh with a single. Dave Hartwick

doubled bringing Lamb around to third and a single from Kirk Hewitt brought home the winning run.

J. Snell was the winning pitcher with Sheehy taking the loss.

The next home game for the Merchants is tonight at the Minden Ball Park when they meet the Bobcaygeon Blue Jays. Game time is 8 p.m.

A bunch of donkeys to play ball

The Haliburton Kinsmen will be taking on the Dysart et al Fire Fighters in what should prove to be a hilarious game of Donkey baseball.

The game will get underway at the Haliburton baseball diamond, next to the community centre at 7 p.m. on Thursday.

If you had to walk to work. Could you make it?

PARTICIPATION The Canadian movement for personal fitness

SENIOR LEAGUE

by Linda English

We began the week at Hyland Crest with Fun & Fitness first thing on Monday morning. We had a real good number attend and had an exciting game of Kick the Ball. There was also some very good scores when we played Darts. We exercised to the music and everyone enjoyed taking part. In the afternoon several ladies went to the Craft

Lindsay - Peterborough to get first directory

The new telephone directory for Lindsay-Peterborough and surrounding area is the first issued in Ontario to feature Bell's Centennial cover.

Bill Stephenson, local Bell manager, said Bell marks its 100th anniversary on April 29, 1980 and the cover portrays the evolution of the telephone through the years. Twelve phone models which were put into use between 1877 and 1968, are depicted. All Bell directories issued in Ontario during the next year will have the Centennial cover.

Some 96,000 copies of the directory will be delivered, beginning July 9 and ending about July 25, Mr. Stephenson said. This is 3,500 more copies than last year.

Bell Canada is continuing its policy of delivering one directory per customer. Anyone who does not receive a copy by the end of July should call his local Bell Canada business office.

The last Lindsay-Peterborough directory was published last November. Mr. Stephenson said Bell has reverted to a summer directory because delivery is much easier, particularly in the cottage area.

Mr. Stephenson said subscribers should consult the wealth of information in the introductory pages. These include emergency numbers for police, fire department and ambulance, long distance

room to work on their various items for the Bazaar on July 18.

At this point I would like to mention that we have one resident, namely Mrs. Deumo who does a particularly good job making wall plaques using seeds. We have trouble getting enough seeds, and we would appreciate it very much, if our readers could save some and

donate them. The kinds we need are watermelon, citron, apples and cantalope. This is the time of the year when these fruits are in season, and we'd like to get enough seeds ahead, as these beautiful owl plaques are very much in demand.

Monday evening, the movies were shown in the auditorium. "Picture Canada" gave us a look at this beautiful land of ours. It showed different buildings such as old log cabins, churches, and hotels. Also our many industries and produce from the rich soil. Since Canada is very much involved in sports, this film showed a great many games such as hockey, curling, snowshoeing and snowmobiling in the winter and canoe races, sailboating, water skiing and baseball in the summer. These are just a few of the many activities that

go on in our great vast country.

A look at Western Canada, the fall wheat harvesting and the Calgary Stampede was particularly interesting. "When Summer Dies" was filmed in Newfoundland. It was filmed for Remembrance Day, and the many great men who died for our freedom. I wonder, do our young people of today really know and understand what remembrance day is all about?

Both these movies were very good and were thoroughly enjoyed by those who watched them.

Tuesday morning everyone made their way to the Chapel to worship with Pastor Brubacher of the Gospel Church in Minden.

After lunch, Doris Robertson called the numbers and several residents played a

relaxing game of Bingo in the main lounge.

Wednesday we started with our regular Fun & Fitness program with again a good number of residents attending.

The afternoon was enjoyed by the ladies working busily in the Craft room. The gentlemen played a game of Carpet Bowling with Mr. Lloyd Coleman helping out. After

Wed., July 4, 1979 the game, the men joined the ladies for tea and goodies.

Thursday afternoon was a special time when several residents were honoured at the Birthday Tea Party. Those celebrating birthdays this month were Isabella Shay, Eleanor Law, Ethel Boice, Ada Lewis, Agnes Lansfield and Robert Kernohan.

continued on page 14

Unless you worked at least 20 weeks in the past year, these changes could apply to you.

In December 1978, Parliament changed the Unemployment Insurance program. Changes starting July 1 mean that some people will have to work longer before they can qualify for Unemployment Insurance benefits.

Please remember, these UI changes affect only those claims which start on or after July 1, 1979. And, the changes may or may not apply to you. So please read on to see if you are affected.

(You'll find terms such as "Weeks of Work", "Qualifying Period", "Variable Entrance Requirement" (VER), and "Unemployment Rate" marked by an asterisk (*). For easier understanding, see the box "Explaining UI terms" at the end of this message.)

Here are the details of those changes.

Have you worked 20 weeks or more in your Qualifying Period*?

If so, this message does *not* apply to you. For you, the number of weeks you need to qualify for regular UI benefits and for UI illness and maternity benefits, or the one-time benefit at age 65 has not changed.

Are you working for the first time?

To get UI benefits, you will usually need 20 Weeks' Work*, no matter where you live.

An exception to this would be if you were on a training course approved by the Canada

Is it too hot to cook?

SALES..SERVICE BODYSHOP

Starting July 1, there will be some changes made to Unemployment Insurance.

Employment and Immigration Commission for at least 14 weeks in the year before your Qualifying Period*. Then you would only need 10 to 14 weeks, depending on the Variable Entrance Requirement* where you live.

Are you starting to work again?

If you're coming back to work after being away a year or more, you'll usually need 20 Weeks of Work* in your Qualifying Period* before you can qualify for UI benefits.

This applies wherever you live.

This 20-week rule won't apply, however, if you were in any of the following situations for a total of at least 14 weeks in the year before your Qualifying Period*.

These are the situations that count:

1. You were getting temporary worker's disability compensation from a provincial program;
2. You were receiving sick or maternity leave payments;
3. You were out of work because of a labour dispute at your place of work;
4. You were on a Commission-approved training course;
5. You were on UI claim;
6. You were working in insurable employment.

So, for first-time workers and those coming back to work:

- A. If you were in any of these six situations for a total of at least 14 weeks in the year before your Qualifying Period*, then you need only 10 to 14 Weeks' Work* in the Qualifying Period*, depending on the VER* where you live.
- B. If none of the six situations fit your case, you will have to have worked at least 20 weeks to qualify for UI benefits.

NOTE: If you are returning to work after being away more than one year, the 20-week rule will normally apply to you.

Did you get UI benefits in the last year?

If you got UI benefits in your Qualifying Period*, there are new rules that may apply to you - unless the Unemployment Rate* in your area is over 11.5 per cent.

1. If a claim you had in the last year has not run out, you may be able to renew it.

2. If yours is classed as a **new** claim, you will need the usual 10 to 14 Weeks' Work* depending on your local VER*, plus up to six "extra" Weeks of Work*. The number of "extra" weeks you'll need depends on how many weeks you got on your previous UI claim. You need one "extra" week (up to a maximum of six) for every week you got over the VER* needed in your area.

Here's an example: You need 12 Weeks' Work* in your region (your local VER*) to qualify for benefits the first time. On your last claim, you drew 15 weeks' benefits before going back to work. Now, you would need the usual 12 weeks, plus three "extra" work weeks. (That's the difference between the 12 weeks you needed to work and the 15 weeks of benefits you drew. In total you would need 15 Weeks' Work* to qualify again within one year. The most anyone needs anywhere is 20 weeks of work to qualify.

Again, please remember, when the Unemployment Rate* in your area is over 11.5 per cent, this rule won't apply to you. You'll need only 10 Weeks' Work* to qualify for regular UI benefits.

Other changes have been in effect since January 1979:

- The weekly benefit rate was reduced to 60 per cent of your average insurable earnings (from 66²/₃ per cent).
- Most people employed for less than 20 hours a week are no longer covered by UI.
- Higher-income claimants may have to repay part of UI benefits drawn in the 1979 tax year. This will only affect people whose income, including UI benefits, is over \$20,670. This will be explained when you get your 1979 tax return.

These things haven't changed:

Just as a review, these points haven't changed:

- You may still get UI illness and maternity benefits and the special benefit paid at age 65 if you've worked 20 weeks in your Qualifying Period*.
- There's still a two-week waiting period before UI benefits start.
- To get regular benefits, you must still be available for and looking for work each day you are on claim.
- You must report any work and earnings while on claim.

- You can be disqualified from getting benefits for up to six weeks if you quit your job voluntarily, you were fired for misconduct, or if you turned down a suitable job offer.
- You can still appeal a decision by UI to deny you benefits.

Explaining UI terms:

*Weeks of Work

This means weeks of work that are insurable for Unemployment Insurance. Most employment of 20 hours or more a week is insurable.

*Qualifying Period

What UI calls your Qualifying Period is the 52 weeks before we start your claim. Or if you had a claim in the last year, it's the time since that claim started.

*Variable Entrance Requirement (VER)

To qualify for Unemployment Insurance benefits, you must have worked from 10 to 14 weeks in insurable employment during your Qualifying Period*. The exact number of weeks depends on the Unemployment Rate* in the economic region where you live. (See below.) If you don't have enough weeks to qualify when you file your claim, we keep your application in the computer file. If the Unemployment Rate* changes so you then have the weeks you need, we will send you a notice.

*Unemployment Rate

For Unemployment Insurance, the Unemployment Rate used for each of the 48 economic regions of Canada is *not* the current monthly Statistics Canada unemployment rate in each region. It is a three-month average of seasonally-adjusted monthly unemployment rates.

Tickets on an Oil Painting to be raffled July 28th 3. Also tickets on quilt to be raffled on August 12th. These articles, the painting and quilt will be on display so get your chances on these. Next event is the Art Show, featuring Dr. Vaughan and Haliburton Artists at Hyland Crest auditorium, July 28th from 1-5; watch for posters. Next meeting will be at same place August 6 at 8 p.m.

Mr. and Mrs. Jack Cowan of Phelpston and Mr. and Mrs. Bob Kitsemety and family of Painswick were Monday guests with the

Lyman Cox's.

Mr. and Mrs. Bruce Blears, and girls of Orangeville spent the weekend with his parents Mr. and Mrs. Stan Blears, and Krista is spending a few days with grandparents in our village.

Mr. and Mrs. Lewis Stevens, Debby and Jason had a dinner party at their home Monday on the occasion of their 19th Wedding Anniversary; we are pleased to say that his grandmother, Mrs. B. J. Walker, and Mom Diane Stevens were both there. The community joins in sending their belated good wishes to Jean and Lewis.

Cpt. and Mrs. Bob Davidson, Michael and Tracy of C.F.S. Beausejour are holidaying at their summer home on Minden Lake.

Paul Davidson of Thornbury and his parents Mr. and Mrs. George Davidson left on the weekend for a visit with Mr. and Mrs. Douglas Davidson of Thunder Bay.

We wonder if summer visitors know there is a Playground near Main Street right beside the Municipal Office, that is if you have youngsters with you to enjoy that. Also the public washrooms are in the Fire Hall nearby and there you also may get you drinking water.

July 9th Story Time starts at Minden Library from 10-11 in the morning and ages are 4-8.

Free Puppet Show sponsored by Regional Library is at Municipal Hall on Monday, July 16th at 1. Cheerio until next time.

1978-77 Average Household Taxes

The average residential assessment per household according to the 1978 assessment roll supplied by the Ministry of Revenue was \$889. Using this assessment base, the average residential tax burden per household was as follows:

	1978	1977	Increase (Decrease)
Townships Levy	\$113	\$ 98	15
County Levy	31	33	(-2)
Board of Education Levy			
Elementary purposes	91	81	10
Secondary purposes	73	63	10
	164	144	20
Total Residential Property Taxes	\$308	\$275	33

The above 1978 taxation per household of \$308 (1977-\$275) is for a public school supporter living in the rural area.

The average taxes reported above represent total taxes payable before consideration of tax credits under the Ontario Tax Credit program or tax relief provisions to elderly ratepayers under The Municipal and School Tax Credit Assistance Act and The Municipal Elderly Resident's Assistance Act.

Notes:

(1) The Revenue Fund operations highlight all the expenditures for the day-to-day running of the Townships, and the revenues raised to finance those expenditures. It also includes assistance of \$46,545 in 1978 to the Capital Fund to pay for capital works in progress and payment of 1978 debt charges amounting to \$71,503.

(2) Of the total actual expenditures shown, the following amounts were not under the direct control of Council:

	1978	1977
County requisition	\$ 110,094	\$ 100,784
School board requisition	490,597	434,981
	\$ 600,691	\$ 535,765

Yearend balance available for future municipal purposes	\$ 92,063	\$ 60,250

NOTICE TO RATEPAYERS

TOWNSHIPS OF ANSON, HINDON & MINDEN

The 1979 final tax bills have now been mailed. A 2% discount will be allowed if payment is made by July 31st, 1979.

Failure to receive a tax bill does not relieve the property owner of any responsibilities involved. The onus rests with individuals to advise of address changes, etc..

For further information regarding taxes please contact the undersigned daily between 8 and 5 Monday to Friday.

The Municipal Offices will also be open on Saturday mornings from 9 to 12 noon during July.

(Mrs.) Elinor Burke, A.M.C.T. (A)
Clerk-Treasurer
P.O. Box 98
Minden, Ontario K0M 2K0
(705) 286-1260

Year End Position of Assets and Liabilities		
	1978	1977
Assets		
* Recovery of accumulated net deficit out of next year's tax levies and charges	\$ 7,460	\$ 36,356
* Cash and short-term investments	187,010	27,464
* Amounts owing to the municipality	73,490	147,204
* Taxes owing to the municipality	136,091	135,231
* Other assets	28,756	31,954
* Capital outlay of the municipality not repaid	402,793	465,210
Total Assets	\$ 835,600	\$ 843,419
Liabilities		
* Temporary bank loans	\$ 140,000	\$ 140,000
* Amounts owing by the municipality	203,844	194,041
* Outstanding long-term debt	399,693	449,128
* Amounts set aside for specific purposes	92,063	60,250
Total Liabilities	\$ 835,600	\$ 843,419
Notes:		
(1) The historical cost and accumulated depreciation of fixed assets is not reported for municipal purposes. Instead, the only fixed asset cost reported is the "Capital outlay of the municipality not repaid" which is the total of the principal portion of unmatured long-term debt and the cost of capital projects not yet permanently financed.		
(2) Details of current municipal revenue "amounts set aside for specific purposes" are as follows:		
	1978	1977
Reserves		
For working capital	\$ 20,800	\$ 15,000
Reserve Funds		
For equipment replacement	5,000	-
For public park purposes	-	7,823
For Ontario Home Renewal Plan	55,831	28,466
For contingencies	10,432	8,961
	71,263	45,250
	\$ 92,063	\$ 60,250
(3) The Minden Cemetery Board and Perpetual Care Trust Fund and the Minden Library Trust Fund having combined 1978 year end balances of \$22,796 (\$18,161 in 1977) have not been included in the Assets of the Township, since these funds are not available for general municipal purposes.		

General Notes

1. The 1978 Financial Report consolidates the operations, assets and liabilities of the Townships and the following two municipal enterprises: The Minden Waterworks and The Minden Sewage System.

2. Municipal enterprises are those activities whose costs are substantially recovered from service charges on users. The only Municipal enterprises of the Townships whose revenues and expenditures have been excluded from the financial information highlighted above is the Minden Cemetery. Copies of the audited financial statements for this enterprise can be obtained from the Townships Treasurer.

3. The financial highlights presented have been basically extracted from the audited 1978 Financial Report of the Townships and its local boards as described in Note 1. The terminology contained in the Financial Report has been modified and expanded in order that you might appreciate more fully the nature of our operations.

4. Copies of the 1978 audited Financial Report and the report of our auditors, MacGillivray & Co., are available from the Townships Treasurer for any resident who wishes to review or analyze the financial operations of the Township in greater detail.

Mr. & Mrs. Bill Riddell celebrated 50th anniversary.

Riddells celebrate anniversary

Olive and Bill Riddell celebrated their 50th Wedding Anniversary on June 19. They were honored at a family luncheon on June 16 at

the Guild Inn, Scarborough. Afterwards, an open house was held with 90 friends and relatives extending their best

wishes. The get-together was held at their youngest daughter's home, Mrs. Ross Rigney in Scarborough.

Married at the Danforth United Church in Toronto in 1929, the couple has three daughters, a son and 12 grandchildren.

Sending plaques and greeting to the couple were: Edward Scheyer, Governor General of Canada, Lieutenant Governor of Ontario Pauline McGibbon, Premier of Ontario William Davis, Stuart Smith, Leader of the Opposition, John Eakins MPP for Victoria-Haliburton and many dignitaries from Toronto and Scarborough.

Since 1971 the couple have lived in their retirement home on Canning Lake, near Minden.

Club 35 News

President Dean Hodgson of Club 35 Hall's Lake chaired the meeting when the members met for the final session before summer activities. The Club had a busy spring with pot luck suppers, cards, & dances. Mrs. Bill Lindsay reported that cards and flowers had been sent to members who were in hospital or sick at home.

Mr. Art Hunt will again be in charge of the Wednesday night bingos which run through the summer months. Every Monday night the Club is open for Euchre.

The bazaar and bake sale will be held on Wed., the 11th of July at 1 p.m. this year. The ladies have been knitting and crocheting for this event and have many beautiful articles ready for that table. Of course, the Home Baking is always an outstanding feature of the afternoon and cottagers come early for top selections. The White Elephant booth is always a top draw for the younger set. An added attraction this year will be the Pick-A-Number booth

presided over by Mrs. Nettie Luther. A tea room will provide a restful time-out.

Members will get together again in the fall to plan the fall and winter season of activities.

Senior League

continued from page 8
These people were presented with corsages made up of daisies and mums, in the evening the Kinsmen came over to call our Bingo numbers. Many thanks to these fellows for taking time out for us. Please have a nice summer and we will be looking forward to seeing you again in the fall. Friday afternoon we held our sing song in the main lounge with Grace Coburn leading the singing and accompanied by Fred Ballard, this brought our week to a close with a happy note.

LISTINGS INVITED

Golfing at Lakeside

Completing our series on golf courses in Haliburton, which started last week, the following is a report on Lakeside Golf Club.

The course has an interesting philosophy that is quite appropos to a relaxing game of golf. "We think there is more to the golf game than just the competition. There must be good companionship and the course must be in beautiful surroundings."

Lakeside is located just

west of West Guilford on Highway 530. Across the road from Grass or Green Lake, the course offers a 2755 yard par 34 nine hole challenge for golfers. The ladies' par is 37.

Course manager Bill Johnson describes the final hole, number nine, as the toughest on the course. The second shot is usually played from a low flat area which blocks the golfer's view of the green. It is hard to hit the green on the second shot.

Clubs and carts are available for rent. Green fees are \$4 for a nine hole round and \$6 for 18 holes.

Which One is the Drop-out?

All of them. Ten million Americans have high blood pressure but dropped out of treatment. High blood pressure can't be cured but it can be controlled. If you need medication, take it daily.
